# What makes TPC different?

#### Independent

We believe independence is essential to giving advice that is truly in our clients' best interest. We do not report up to a large corporate entity, and are thus not limited in the financial products we can recommend.

#### Fee-only

We are paid directly by our clients and do not receive income from any additional sources. We do not earn commissions from the products and services we recommend.

#### **Fiduciary**

We are legally and ethically bound to act in your best interest at all times. No exceptions. We believe the fiduciary standard is an essential component of the trusting relationships we build with our clients.

#### **Integrated Tax Planning**

Most financial planning firms have to refer clients to outside tax professionals, adding extra costs and unwanted complexity. At The Planning Center, we have an in-house team of CPAs and other tax experts to help you manage your lifetime tax liability.

# What comes next?

#### Repeat

"Financial planning" isn't just a noun. It's a verb, too! It's something you do- year in, year out- to stay on track. Financial success is all about building great habits and sticking with them over time. We provide the accountability and guidance to do just that.

#### Build

Financial planning is a bit like building a house. It's a process that requires time, attention, and expertise. In year one we create the blueprint and lay the foundation. After that we build your dream home, brick by brick.

#### Review

Each year we will take time to celebrate the progress we've made and reflect on the learnings we've accumulated along the way. What's working? What isn't? How might we improve and adapt the plan moving forward?

#### Revise

In truth, there's no such thing as a "final draft" of a financial plan. Your plan will be a living, breathing document that will inevitably go through multiple changes over the years. You change and evolve. Your plan should do the same.
